

Energy Star Certification

ENERGY STAR qualified new homes are substantially more energy efficient than homes built to the minimum code requirements. Our ENERGY STAR qualified new homes are independently verified by a third-party Home Energy Rater to ensure they meet ENERGY STAR energy efficiency guidelines. These homes are built for the environment and better for you.

- Energy Rater Analyzes Your Plans & Specs
- Efficiency Improvements are Identified
- Home is Built with Energy Improvements
- Perform Blower Door and Duct Blast Tests
- Energy Rater Inspects Home
- Energy Rater Certifies Home and Testing
- Rating Provided and Home is Registered
